## Why Choose IRCM?

- \* Insurance Risk & Claims Management Limited is the specialist marine and leisure division of the award-winning KGJ Group of companies, an independent family owned business. Whilst we provide insurance and risk management services across the whole marine sector, the core of our business is drawn from the classic, historic and wooden boat sectors. Our management team includes former boatbuilders and boatyard managers who truly understand the needs of our customers: those who build and restore wooden craft and those who subsequently own them.
- \* Our ever-growing portfolio of such vessels includes a large number of Dunkirk Little Ships, former Royal Naval Vessels and an increasing number of Steam Boats.
- \* As experienced and specialist marine insurance brokers we have access to a number of our own specialist schemes which allow us to quote and issue documentation immediately without having to refer vessels to underwriters because of their age.
- \* **With full in-house claims support, insurance tailored to your precise requirements and competitive premiums, why go anywhere else?**
